

# LBT Observing Log for 2024 11 27 UT

Observers: Justin Rupert

Partner Observer: Don Terndrup

Telescope Operator: Steve Allanson

## Plan:

PEPSI PFU to start. We'll move on to either MODS and/or LUCI if conditions allow. Forecast is very cloudy all night.

## Summary:

## Issues:

## Weather:

Overcast at sunset.

## Overview (times are given in UT):

00:06 Initializing LUCI1.

00:08 Waking MODS1.

00:10 Staying closed due to thick clouds and winds gusting above the observing limit.

03:32 modsSimSnap 1.

03:35 instconfig timeout. Aborted script, updated gui, and ran SimSnap again.

03:38 LUCI field stop alignment.

10:35 We're calling the night.
