

LBT Observing Log: 2025 JUL 04 UT

Observers: Alex Becker, Ilya Ilyin

Partner Observer:

Telescope Operator: David Gonzalez Huerta

Plan:

OSU_PETS transit with PEPSI-POL (07:30-11:45 UT) and OSU_WMBStokesV before that

Summary:

Closed all night due to clouds, rain, & humidity

Issues:

Weather:

Clouds, rain (some heavy at times), high humidity

Overview (times are given in UT):

Opening delayed due to clouds.

Alignment of the AGW rotator center for PEPSI-POL while closed.

03:55 Opening

04:12 Closing

Threatening clouds coming in fast

05:50 Heavy rain

10:34 We are in twilight now. Calling the night. Humidity is >100% and we are in the clouds.
